SUPERIOR GLAZED STONEWARE DRAIN PIPES,

formed and manufactured by

WILLIAM NORTHEN, UNION POTTERY, No. 14, VAUXHALL WALK, LAMBETH.

W. NORTHEN begs to inform surveyors, contractors, builders, water companies, &c., that he has completed "Appareo's" new patent machinery for making GLAZED STONEWARE DRAIN PIPES, JUNCTIONS, BENDS, ELBOWS, SYPHON TRAPS, &c. &c. Amongst the many advantages of pipes made by this machinery over all others may be mentioned, that it insures perfect uniformity in form and size, both of pipes and sockets, the clay being of a different and better consistency than any others now in use; and the pipes and sockets being made by one process are entirely free from separation.

W. N. invites particular attention to the superior quality of the glaze used in his manufactures, which is equal to glass, and rendering the pipes in the driest impossible. CLOSET PANS, with large and fixed traps, and improved inside white glaze.—W. NORTHEN'S PIPES MAY BE INSPECTED AT THE FOLLOWING PLACES, WHERE ORDERS ARE RECEIVED:

Reuter and Co.'s Wharf, Limehouse; Kingsland Blacksmiths, and Millbank, Westminster.—Martin and Woods, Market Wharf, Regent's Park Basin.—J. C.
